

HELITHA RUPASINGHE

BSc Hons Computer Science Graduate

Professional Summary

I am a software engineering graduate who's also a self-taught web designer, web developer, working in both, backend, and frontend programming. Excited for improving my skills and learning new technologies. Most experienced in HTML5, where I'm currently learning the MERN stack which is the tool to use for faster End-to-end Development. Always open to learn and work with any web technology & I'm currently pursuing a position with duty and room to grow.

Experience

Newsletter Subscription Page, Nov 2021

An End-to-End application, managed from development through to live deployment.

- Developed with Node.js. JavaScript, HTML and CSS
- Interface built with Mailchimp API to collect and store all user data.
- The app is hosted on Heroku.

[Live Demo](#) 

[GitHub](#) 

Level Six Security, Nov 2021

An End-to-End application, managed from development through to live deployment.

- Developed with the MongoDB, Express.js, Node.js and EJS.
- Passport.js is used to authorize the user utilizing OAuth2 security.
- The software application is hosted on Heroku.

Skills

Frontend

- React.js
- HTML5
- Css3
- JavaScript
- API
- Bootstrap
- jQuery
- Redux

Backend

- Node.js
- NPM
- Express
- SQL
- MongoDB
- Rest API

Tools and Platforms

- Codepen, Code Sandbox, Git
- Chrome Dev Tools,
- Redux Dev Tools,
- Photoshop, Figma,
- Virtual Box, Postman, Heroku, Firebase, Netlogo, JupyterNoteBook, Unity and Atom.

Education

BSC (Hons) Computer Science (Software Engineering) (2021)

University of Hertfordshire | Hatfield, UK

BTEC Extended Diploma (2017)

Buckinghamshire UTC | Aylesbury, UK

Certifications

Learn MERN Stack with WebRTC and Socket IO

Feb 2022
